Honolulu, HI - Hawaii Human Resources, Inc. (HiHR) has hired Dana Haglund to join its Client Relations Team. Haglund's seven years of experience as a licensed insurance professional in Hawaii and on the mainland enhance HiHR's ability to provide clients with educated business, insurance, and HR support.

"I look forward to utilizing my years of practical knowledge to offer customers specific solutions to their administrative needs," said Haglund. "Every client we work with has to have insurance to operate, and when they are faced with complicated choices, I have the ability to help them make conclusive decisions."

"Dana has a tremendous amount of insurance and customer relations experience, which our sophisticated clients will appreciate," said HiHR CEO and President Matthew Delaney. "She also has wonderful interpersonal skills, and will do a great job carrying out our primary objective of exceeding those clients' expectations."

HiHR encourages Haglund's continuing professional education by accommodating her schedule and paying for classes that will augment her proficiency in the insurance field. "This support allows me to operate at my best, and makes it easy to go the extra mile and over-deliver on every detail," added Haglund. "Not only is HiHR a team environment, it is a company that is growing in all directions. This gives me the opportunity to learn and grow with them."
